

**Unit 1**  
***How Have Immigrants Shaped America?***  
**Research-O-Rama**

**Introduction:** Many historians agree that immigrants have shaped America-- perhaps more than any major country on earth. Just *how* have immigrants shaped this great nation we live in though? How have our customs, laws, food, traditions, beliefs, and values shifted?

**Directions:** For this assignment you will be summarizing, analyzing, and citing thirty to forty online sources to answer this essential question. Don't worry! You will only need to add one article summary as a contribution. This is a shared document, meaning everyone will be adding information simultaneously. In the end, you will make a copy for yourself in preparation for our final project. You'll be able to look back at this exhaustive list to help form your final arguments in your paper.

Click on the link here [hmhfyi.com](http://hmhfyi.com) for the list of articles. Take two or three minutes to peruse articles, and then pick one that is most interesting to you. As you read, look for a quote that answers the question of how immigrants have shaped America. Then, fill out the information on the chart below.

**\*\*Special Note:** Although tempting, adding inappropriate comments, erasing work, or started text threads will not be accepted. You will be removed from the shared document if this occurs.
